## SEND BOYS TO FARMS, KEELER

State School Superintendent Says Boys Must Replace Men to Raise Food Needed By Nation.

(From the address of Mr. Fred L. Keeler, State Superintendent of Public Instruction, delivered at the State Conference of the United States Boys' Working Reserve in the Senate Chamber, Lansing, on March 7, 1915.)

"I want to say, as your superintendent of Public Instruction, that we endorse the United States Boys' Working Reserve. I know that you all believe we are right up against the real thing and that one of the most essential things is food. It is some job to replace the men who are across the water and are in the different contentions in this country and we have no source to draw from except boys—and women; and my position as superintendent of Public Instruction is to take the boys from the schools when they are needed. I also think that credit should be given these boys, the same kind of credit, the same amount of credit, that would have been given them had they remained in school.

"I want to assure you that the Department of Public Instruction is at your service for anything it can do to aid this work."

Enlistment into the U. S. Boys' Working Reserve is a voluntary, patriotic service, and not at all compulsory as to when and how the boy who enlists shall abandon the service, subject always to his parents' consent that he shall abandon it. The Oath of Service is a moral obligation, that it has to do with the particular tasks that the boy elects to undertake; and that, without the consent of his parents, no force of Government will be employed, or, under the terms of agreement can be employed, to compel him to keep his Oath or to punish him for its violation.

For purposes of enrollment the physical examination of candidates for membership can be satisfactorily conducted by enrolling officers. Only when there arises a case, and it will be occasionally arise, where the boy, from his appearance and from his answers to questions, reveals some physical insufficiency should he be subject to the examination of a trained physician.

An Enrollment Button showing the Great Seal of the United States with the word "RECRUIT" displayed upon it. This button is to be given to the boys at the time of their enrollment into the Reserve.

## SERMON ON PATRIOTISM

By a 1,000 Per Cent American.

Here is a sermon on patriotism. It comes to Chicago from Sturgeon Bay, Wis. The standard of patriotism preached in this sermon is so much above the patriotism of many thousands of men and women in the Seventh reserve district that the Liberty loan executive committee is sending the story broadcast throughout the district in the hope of rousing a spirit of emulation in the breasts of all citizens, both naturalized and native born. Were every man in the Chicago district to attain the standard of Demosthenes of Sturgeon Bay, Wis., it is pointed out, the whole \$3,000,000,000 would be subscribed in this one district alone.

Demosthenes, a 1,000 per cent American, has the following message for Uncle Sam:

"You can borrow anything and everything I have."

And this is not his message alone. It is also the message of his two brothers—Antoneos and Stavros. Their surname is Angnostopoulos, and they conduct a small candy store in Sturgeon Bay, Wis. Let Demosthenes Angnostopoulos do the rest of the talking.

"We boys didn't have anything when we came to this country. My brothers and I were very poor in the old country. All we have we made here. This country has given us great opportunity. Whatever we have we owe to this country."

"We don't consider that we have done anything beyond a fair share in

taking \$3,000 worth of Third Liberty loan bonds. We took \$1,600 of the second loan, and our allotment for the third loan, figured by the appraisal committee on the basis of assessed valuation of property, was \$100 each, or \$300 for the three of us. But as we had the money and we knew that Uncle Sam wanted to raise much money for the war, we decided to let him have all our savings. We know that it is a safe investment, and we don't consider that we have been particularly patriotic in lending this amount to the government.

"We talked it over and we decided that we owed this country something—yes, everything—and we felt the least we could do would be to lend money to the government."

"Tony" is in the draft and probably will go to one of the cantonments on the next call for soldiers. He is glad to go and fight for his country. We—Stavros and myself—are glad to have him go, and if we are called, we, too, will be glad to go.

"We don't consider that we are entitled to be known as patriots for lending our money to the government. The security is so good, the interest is so high, the investment is so excellent in every way, that we would have been glad to take advantage of the opportunity even if the best country in the world had not been at war and in need of money."

"In the sixteen years we have lived here we have prospered. We know that America gives every industrious man a splendid opportunity. We want that opportunity continued. That is the reason we subscribed."

## TWO KINDS OF PATRIOTISM.

Mr. Farmer, you have brought a lot of idle land into tillage this spring. You are going to raise all the grain and forage and live stock your farm can be made to produce. That's one kind of patriotism, and a very necessary kind.

Every farmer who brings a new acre of land into cultivation is a soldier on the firing line for liberty and democracy.

But there is another kind of patriotism that is just as necessary. It is just as necessary that the stuff you produce shall be put at the disposal of the fighting forces, as it is that you should raise it.

That means money. You have money to pay for the labor of farming your land and producing grain and stock. The government must have money to buy your produce for the fighting men in France. Money is absolutely necessary to buy food, munitions, clothing, ships and medical stores.

You are doing your duty in raising the crops, that is very true. But in a war like this one no man does his full duty who does not do all that he possibly can do.

Bring out the grain you have stored away. Sell it at the fair price fixed by the government.

Bring out the money you have stored up in the banks, or hidden away in your iron box behind the barn. Every dollar is urgently needed.

Invest every idle dollar you have in Liberty bonds. The government will repay you in a few years. Meantime you will receive interest at the rate of 4 1/2 per cent, with valuable tax exemptions, to make the investment better. Invest every dollar you can in Liberty bonds.

Every dollar you bring out of concealment means \$10 added to the fighting capacity of the United States in the world war.

Wilford Blair, whose school in the Marble district will close next week, has decided to join the state constabulary and is already making the preliminary arrangements for getting into that branch of the service.
